

Dancing with Lions

Sylvia Kegel

*You are there for me when I walk through a valley
You celebrate with me on a mountain peak
Since I've seen a few storms up close
I know I'd rather find You in a gentle whisper*

*And You are all I need and so much more
In the end it's only You I adore
You lift my spirit, lift my soul
Yes, You are my Rock and Roll
And I'm loving You, loving You, from moment to moment*

*You're my light of day that makes me wake up
Able to calm my soul when I'm all worn out
Since I've found the best friend in You
I feel secure and brave*

*A sheep dancing with lions
A lion guarding the sheep*

*You are a challenge for me and You are my comfort and my bliss
And I can find Your spirit in every community that loves justice
You are the way and the truth and the life that I want to live
Here I stand gratefully saying: thank You for all that You give*
