FLEE SATAN FLEE

Kristian Reschke

Em                        A
Once we were bound by the enemy,
        Em              D                   A
But now where we know Christ, no curse can longer be!
Em                                A
Once we were abused by the liar and his tricks,
        Em              D                   A
But now, where we know Christ, we give him the kicks.

G                        D                   C
Satan, we resist you in the name of Jesus Christ!
G                        D                   C
We do hunt you and you can not hide!
G                        D                   C
We do love and we do fight!
G                        D                   C                   Em
We do proclaim our God is righteous and holy.

There is a sick world, which needs to be healed.
There are lonely children, who need to be sealed.
There is a kingdom of glory and grace
And overall the living God, just look in his face.
