

# SALVATION

*Obadja*

May your salvation be ever with me!

I do not fear, nothing. God is here!

Salvation is of the Lord.

Lord, Lord, Protector.

God is, God is protector.

God's here to protect me. God's here to guide me,

Through all these hard temptations to the place of golden streets.

God's here to protect me. God's here to guide me,

Through all attacks of evil to the place of security.

God's here to protect me.

From east to west, from dawn to dusk. Keep lifting all your praises to him!
