

# MORE OF YOU

*Jesusburger (Kristian Reschke)*

Am                      F                      C                      F  
More of you, much more of you, I run to you, my God  
More of you, much more of you, Jesus, you're my love

                    C            F  
And I want you ,  
I've got to be with you  
My desire  
is to do the things you want me to

Am                      F                      C                      F  
God please take me by your hand, turn me upside down  
All I need to have right now, I find in your arms
